THE "CHEATING AI" EPIDEMIC

\$20B

global market of online educational content, yet student performance is dropping

82% OF HIGH SCHOOL STUDENTS

admit to using ChatGPT or search engines to copy homework answers directly

SYSTEMIC INEQUALITY

Quality private tutoring costs \$30-\$80/hour, locking out low-income and rural families

LEARNING REGRESSION

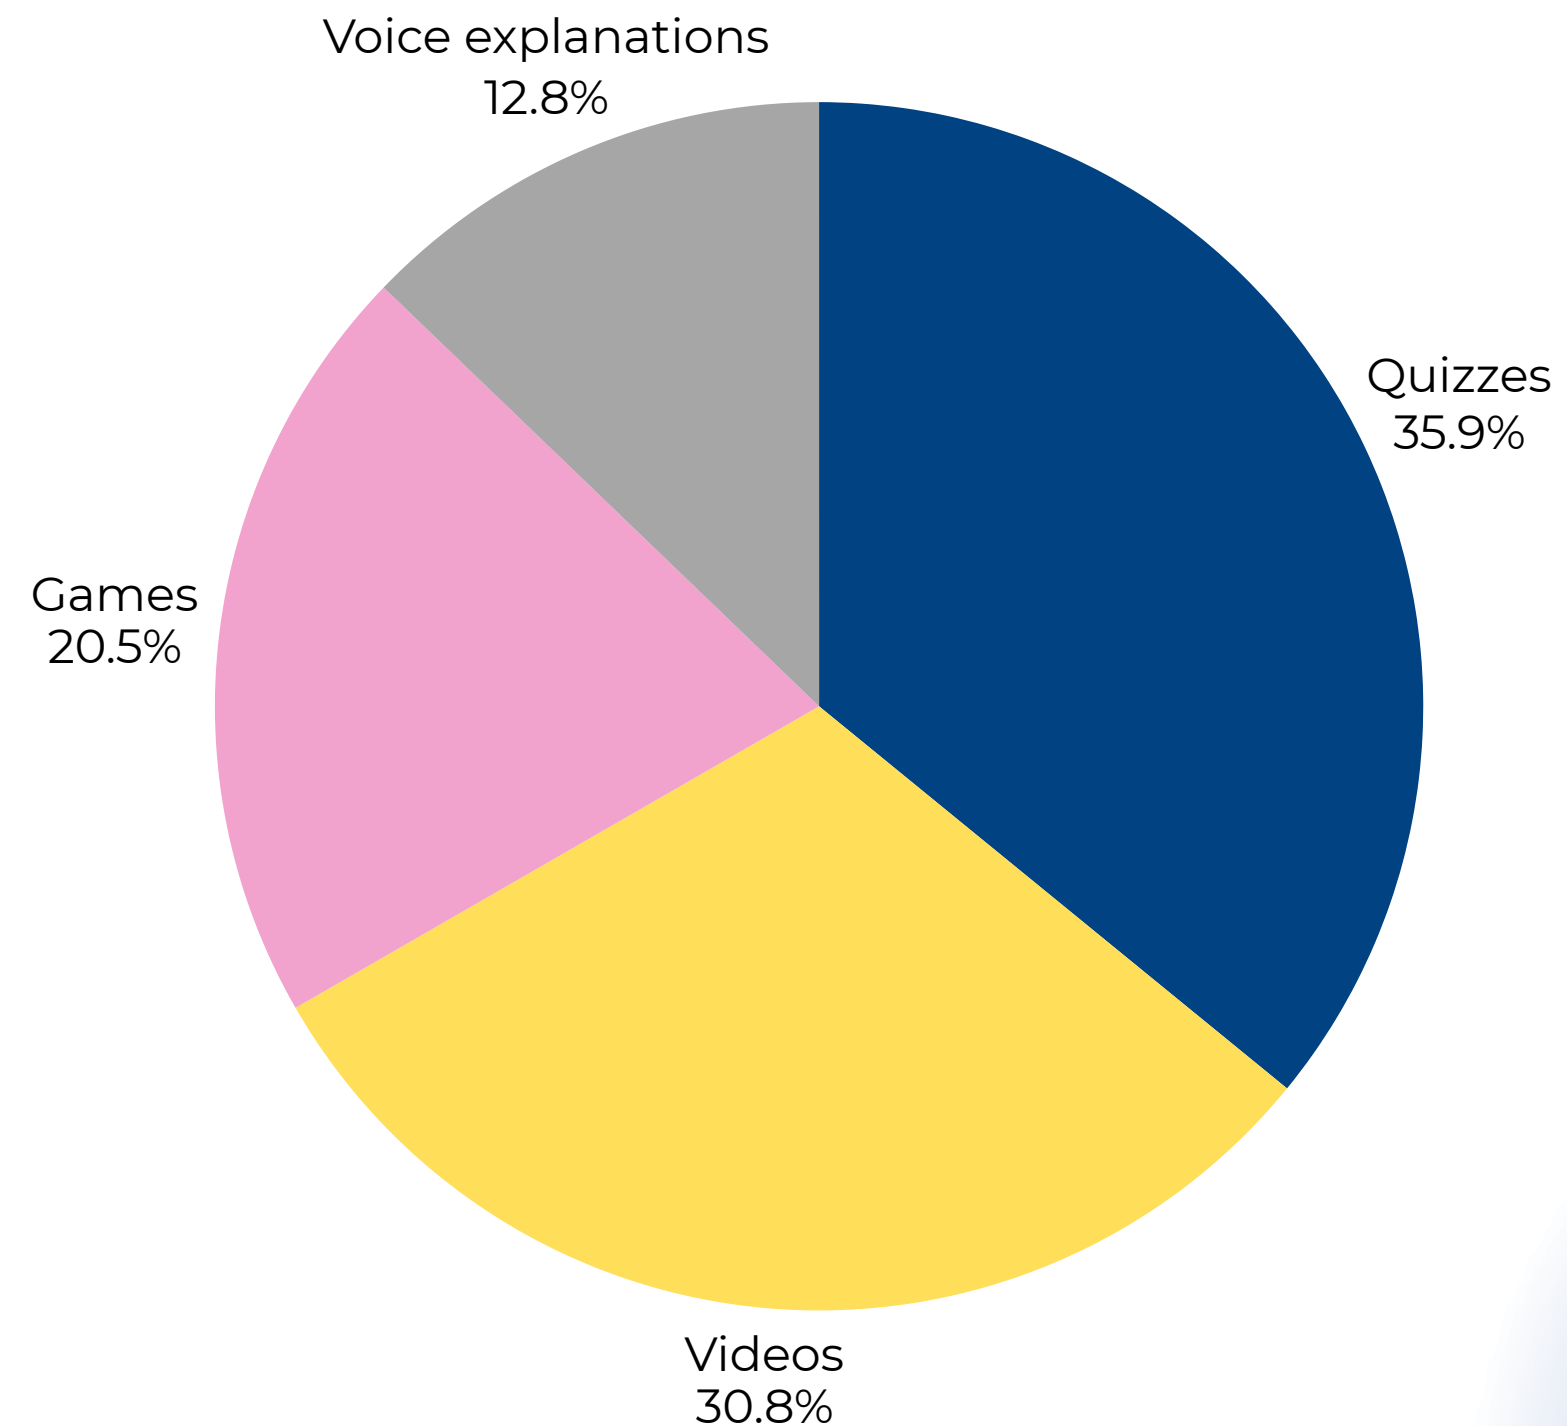

Students bypass the struggle of learning, leading to a decline in problem-solving and critical thinking skills

WHAT STUDENTS TOLD US

STUDENTS WANT

- Simple explanations
- Weak-topic tracking
- More practice
- Motivation
- Trust and accuracy

AI Use Disclosure Statement

Select how you used Persona Lab to generate a statement for your teacher:

- ☒ I used AI to understand difficult concepts.
- ☐ I generated practice questions and checked my answers.
- ☐ I asked for grammar and structural feedback on my draft.
- ☐ I generated outlines, but wrote the final work myself.

Generated Statement:

I utilized the Persona Lab AI assistant for the following tasks:
- I used AI to understand difficult concepts.

Academic Honesty: Use this resource to clarify, practice, and learn. Write your assignments yourself.

Copy to Clipboard

NORMAL AI

- Gives direct answers
- Encourages copying
- No learning control

PERSONA LAB

- Guided learning mode
- Try first
- Hints before answers
- Answer checking
- AI-use disclosure
- Fact-checking focus

Student: "Write my essay."

*Persona Lab: "I can help with an outline, but
the final work should be yours."*
