# FINANCIAL MODEL - B2B

medium and large  
companies

Fee for successfully placing a candidate

- **Companies pay an equivalent of 20% of the hired employee's first-year annual salary.**

## Advantages:

- Reduces company risks
- Includes follow-up with the employee for 3 months
- Ensures job-ready candidates

# FINANCIAL MODEL - B2C

**Support and Dignity**

**Model: Immigrants pay nothing throughout the process.**

**Why this works:**

- **Zero upfront risk for vulnerable populations**
- **Incentive alignment: We only get paid when they secure a good job**
- **The companies payments help fund language training and psychological support for the next cohort of immigrants**

# NEXT STEPS

## 3 months

- 5-10 companies
- 30 immigrants
- have a pre-website
- government funding
- connection to SENAI universities, NGOs

## 6 months

- 30 companies
- 100 immigrants
- stronger network
- website
- community

## 1 year

- 50 companies
- 300 immigrants
- 20 employees,  
including immigrants  
in our company

**The talent you lack, we find.**

**INDUSTRY SHORTAGE**

**INTERVIEWS**

# WHY COMPANIES CHOOSE US

Vacant positions cost

**3x**

more than monthly salary for a  
worker in that position

Replacing an employee typically  
costs

**30% to 200%**

of their annual salary

Companies pay up to

**70%**

of the university fees to have  
workers with

**MORE  
QUALIFICATION**

# 1. INPUTS

Financial resources

Partnerships with NGOs and migrant support organizations

Partnerships with universities

Intercultural mentors  
Intercultural mentors

Talent-company matching  
digital platform

Research and data on migration and labor market barriers

Legal and institutional frameworks supporting migrant integration

## 2. OUTPUTS

### 2.1. Activities

Assessment of migrants' qualifications and previous experiences

Referral to relevant qualification courses

Connection between companies and migrants

Follow-up, mentoring, and career sessions

### 2.2. Participation

Number of migrants using the platform

Number of active partner NGOs

Number of interviews conducted

Number of migrants employed after interviews

Number of vacancies filled

## 3. OUTCOMES & IMPACT

### 3.1. Short Term

- More job interviews
- Migrants better understand the local work environment
- HR professionals increase awareness of biases in evaluating international experience
- Migrants gain clarity about career pathways
- Companies gain tools to evaluate international experience more fairly

### 3.2. Medium Term

- Increase in the hiring of qualified migrants
- More migrants seek support from the program
- Migrants remain longer in their jobs
- Vacant positions are filled

### 3.3. Long Term

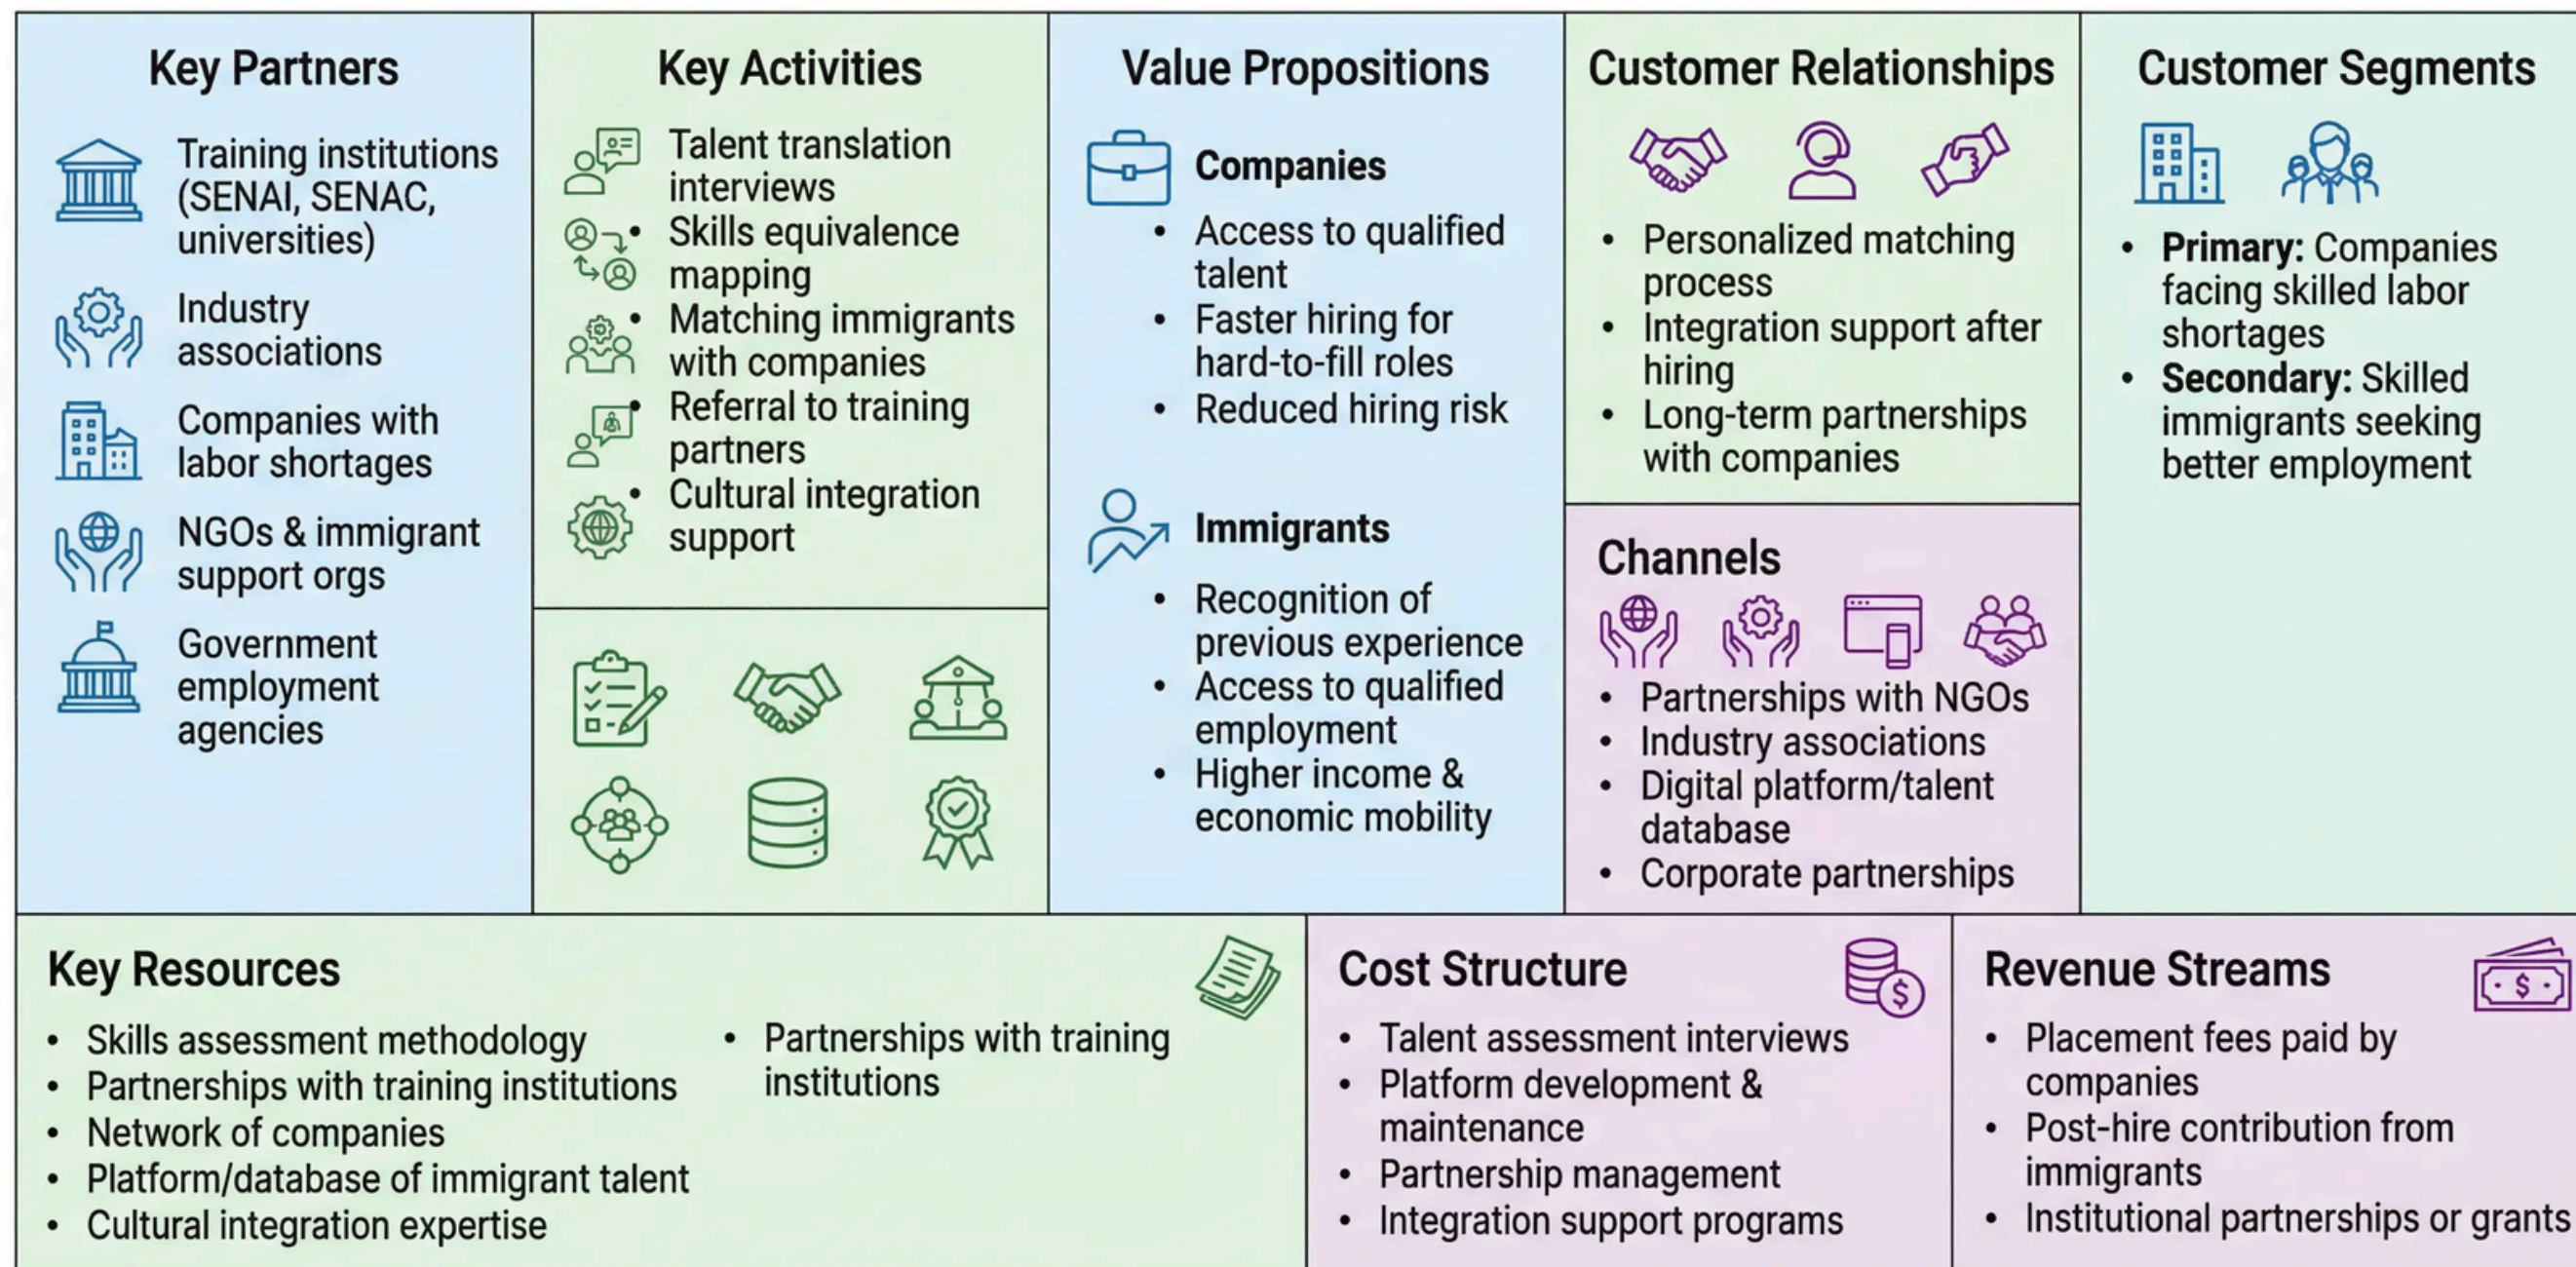

- Reduction of labor shortages
- Reduction of migrant underemployment
- More inclusive labor markets
- More innovative organizations through diversity
- Economic growth driven by the integration of global talent

# BUSINESS MODEL

## Business Model Canvas — Global Talent Solving Local Shortages

# GOVERNMENT INCENTIVES

- Federal support for regions receiving migrants (PL 2.658/2025)
- Social assistance access for immigrants (PL 2.425/2020)
- Updates to migration residence rules (PL 238/2025)
- Regional: Immigrant-Friendly Company: Law in São Paulo that aims to grant tax incentives and subsidies to companies that hire immigrants.

# ECONOMICS

## COMPANIES

If the platform fills  
50 positions that would  
otherwise remain vacant:

Average salary:  
**R\$100,000/year**

Estimated loss if unfilled:  
**R\$300,000 per poition**

**$50 \times 300,000$**   
**R\$15 MILLION**  
in avoided economic  
losses

## ADDITIONAL INCOME GENERATED

Average salary increase  
per person: **R\$2,000/momnth**

**$R\$2,000 \times 12 \text{ months} \times 50 \text{ people}$**

Result

**R\$1,200,000 in  
additional annual income**

Immigrant families generate R\$1.2 million more  
income per year after entering better jobs.

## REDUCTION IN SOCIAL ASSISTANCE

Average monthly assistance  
per person: **R\$1.2 million**  
more income per year

**$R\$150 \times 12 \text{ months} \times 50 \text{ people}$**

Result

**R\$90,000**  
reduction in public spending

Immigrant families reduce R\$90,000 in public  
assistance per year after entering better jobs.
