Barriers to Healthcare

Poor healthcare infrastructure

Poor emergency transport

Lack of medical equipment

Shortage of healthcare workers

Lack of health education

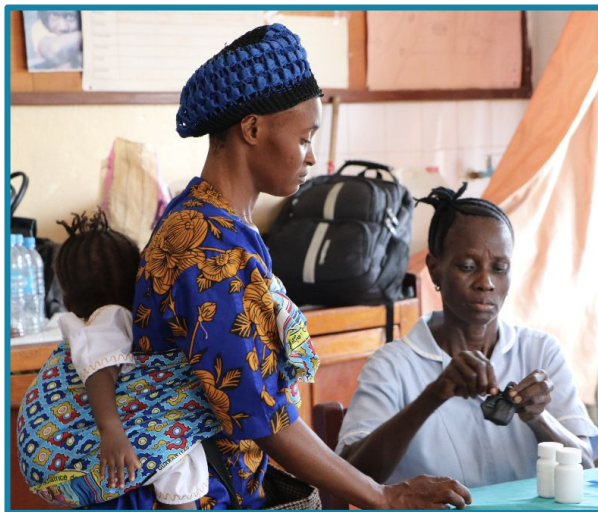

Lack of trust in system

What our films accomplish:

01 Encourage women's health seeking-behavior

02 Improve trust & confidence in healthcare system

03 Amplify existing resources for mothers

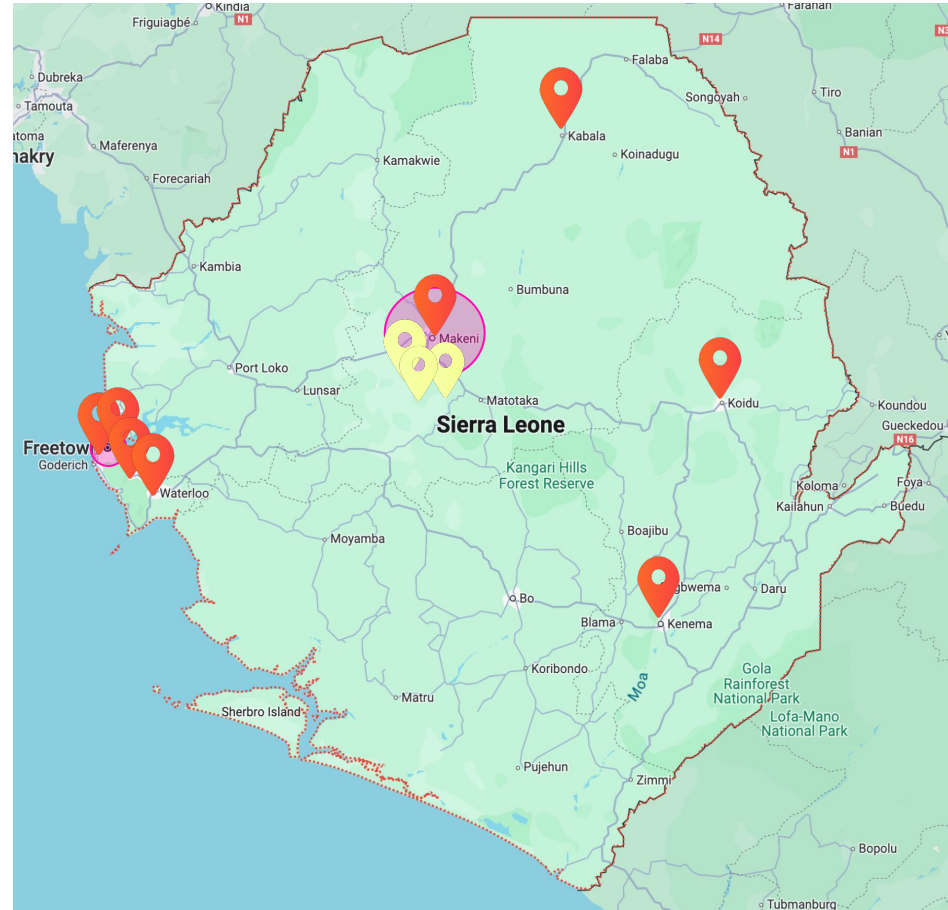

In three years..

MOSL will revolutionize how mothers and university students access and engage with healthcare education about maternal health. Through transformative teaching modules and hands-on video production training, we will achieve empowering women in rural Sierra Leone to create impactful educational content that improves maternal and family health outcomes.
